

PROTECT OUR HEALTH AND HELP OUR REGION MOVE OUT OF THE PURPLE TIER

IF WE PRIORITIZE TESTING, WE CAN DO BOTH.

Asymptomatic COVID-19 positive persons can spread the virus, impact the health of co-workers and family members, and keep Sonoma County in the most restrictive re-opening tier (the Purple Tier). If we cannot move out of the Purple Tier, we cannot have any indoor dining, indoor tasting rooms, or indoor gyms and fitness centers.

You can help! Your business can help!

1. Schedule employees to be tested on a weekly basis. Ongoing, County-sponsored testing sites are available in several locations. Full list [here](#). If you want to host a testing site at your business (they're very safe) we can do that, too.
2. Share information on pop-up testing sites with employees. Find the downloadable flyer [here](#).
3. Share information on [testing incentives](#) with employees. The County will offer gift cards of up to \$30 per tested person to help offset costs such as lost wages or transportation. Residents who live in neighborhoods that are economically disadvantaged (including part of Healdsburg) can receive financial incentives to appropriately quarantine. Link to census tract map [here](#).
