

CARING FOR YOUR COMMUNITY

Getting your employees tested for COVID-19 can help protect public health and help open our economy

Asymptomatic COVID-19 positive persons can spread the virus, impacting the health of coworkers and family members, and keeping Sonoma County in the most restrictive purple tier. If we cannot move out of this tier, some businesses and activities will remain closed or otherwise restricted. **Your business can help!**

SHARE with your employees information about FREE testing. Some residents may be eligible for financial assistance for properly quarantining. For testing at pop-up sites, the County is offering gift cards of up to \$30 per employee to help offset costs of lost wages and transportation. [**MORE INFO**](#).

SCHEDULE employees to be tested on a regular basis. Ongoing, large group, County-sponsored testing is available at Bluebird Community Center in Windsor and other locations. [**MORE INFO**](#).
